Correspondence relating to editorial matters should be addressed to the Editor, Prof. R. G. E. Murray, Department of Microbiology and Immunology, University of Western Ontario, London N6A 5C1, Ontario, Canada.

Microbiological Reviews, a publication of the American Society for Microbiology, 1913 I St., N.W., Washington, D.C. 20006, accepts reviews and monographs dealing with all aspects of microbiology. *Reviews* is published quarterly (March, June, September, and December), one volume per year. The nonmember subscription price is \$30 per year. The member subscription price is \$8 per year. Single issues are \$8. Correspondence relating to subscriptions, reprints, defective copies, availability of back issues, or lost or late proofs should be directed to the ASM Publications Office, 1913 I St., N.W., Washington, D.C. 20006 (area 202 833-9680).

Second-class postage paid at Washington, D.C. 20006, and at additional mailing offices.

Made in the United States of America.

1979 Full Membership — American Society for Microbiology

1913 I St., NW, Washington, DC 20006

The Society welcomes to full membership any person who is interested in its objects, and who holds a bachelor's degree in microbiology or a related field (or who has had training and experience equivalent to that represented by a bachelor's degree).

The minimum annual membership assessment is \$28 which includes a \$3 membership fee, \$4 for subscription to *ASM News*, and \$21 toward subscriptions to the Society's scientific journals. The Society publishes eight scientific journals (listed below). Members may subscribe to one or more of these journals at special member rates; \$21 of the minimum dues payment of \$28 may be credited towards journal subscriptions. In addition, the Society publishes the monthly *ASM News*, which is sent to all members and contains news and announcements of interest to all microbiologists.

Memberships are initiated and renewed as of 1 January each year. Unless there are directions to the contrary, membership nominations received prior to 1 November will be credited to the current year, and back issues of the selected publications for the current year will be furnished if available. Nominations received after 1 November will become effective on the following 1 January.

1979 Student Membership — American Society for Microbiology

1913 I St., NW, Washington, DC 20006

Any regularly matriculated student major in microbiology or a related field is eligible for election as a Student Member. Student Members have all privileges of membership except the right to vote and hold office in the Society.

Student Members receive the monthly *ASM News* and are entitled to subscribe to the Society's journals at member rates.

Memberships are initiated and renewed as of 1 January each year. Unless there are directions to the contrary, membership nominations received prior to 1 November will be credited to the current year, and back issues of the selected publications for the current year will be furnished if available. Nominations received after 1 November will become effective on the following 1 January.

CONTENTS

An Editorial	1
Patterns of Growth and Development in Pleurocapsalean Cyanobacteria. JOHN B. WATERBURY* AND ROGER Y. STANIER	2-44
Iron and Infection. EUGENE D. WEINBERG	45-66
Genetic Regulation of Penicillinase Synthesis in Gram-Positive Bacteria. JOHN IMSANDE	67-83
Mycobacterial Antigens: a Review of Their Isolation, Chemistry, and Immunological Properties. THOMAS M. DANIEL* AND BERNARD W. JANICKI	84-113
Anatomy and Chemistry of Spirochetes. STANLEY C. HOLT	114-160
Genome Comparison in Yeast Systematics: Delimitation of Species Within the Genera <i>Schwanniomyces</i> , <i>Saccharomyces</i> , <i>Debaryomyces</i> , and <i>Pichia</i> . C. W. PRICE, GAYLE B. FUSON, AND H. J. PHAFF*	161-193
Transfection of <i>Enterobacteriaceae</i> and Its Applications. ROLF BENZINGER	194-236
Evaluation of Survival in Challenge Experiments. F. D. K. LIDDELL	237-249
ERRATUM	
The Biology of Methanogenic Bacteria. J. G. ZEIKUS	250

CONTENTS

Evolutionary Aspects of Autotrophy. J. RODNEY QUAYLE* AND THOMAS FERENCI	251-273
The Chlamydia: Molecular Biology of Prokaryotic Obligate Parasites of Eucaryocytes. YECHIEL BECKER	274-306
Genetics and Biochemistry of Carbamoyl Phosphate Biosynthesis and Its Utilization in the Pyrimidine Biosynthetic Pathway. A. J. MAKOFF AND A. RADFORD*	307-328
The <i>Sphaerotilus-Leptothrix</i> Group of Bacteria. W. L. VAN VEEN, E. G. MULDER,* AND MARIA H. DEINEMA	329-356
Genetics of <i>Rhodospirillaceae</i> . VENETIA A. SAUNDERS	357-384
Molecular Genetics of Bacteriophage P22. MIRIAM M. SUSSKIND* AND DAVID BOTSTEIN	385-413
The Mycoplasmas. SHMUEL RAZIN	414-470

- Linkage Map of *Salmonella typhimurium*, Edition V. KENNETH E. SANDERSON* AND PHILIP E. HARTMAN 471-519
